Future: Digital Marketing / Analytics Skills of the Future: Health Care Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Software Development Development Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Summan Summan Skills A certificate collection of courses oriented to an entry-level role in a high-demand career field Courses in digital marketing and marketing analytics, oriented to areas of high future jobs growth Courses in health care (clinical occupations focus), oriented to areas of high future jobs growth Courses in health care (clinical occupations focus), oriented to areas of high future jobs growth Courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Marketing / Analytics Skills of the Future: Health Care Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Project Management Skills of the Future: Project Management Analytics Skills of the Future: Project Management Skills of the Future: Project Management Analytics Courses in health care (clinical occupations focus), oriented to areas of high future jobs growth Courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Marketing / Analytics Skills of the Future: Health Care Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Software Development Development Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Analytics Courses in health care (clinical occupations focus), oriented to areas of high future jobs growth Courses in health care (clinical occupations focus), oriented to areas of high future jobs growth Courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Skills of the Future: Health Care Skills of the Future: Human Skills Skills of the Future: Human Skills Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Project Management Skills of the Future: Project Management A courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Skills of the Future: Health Care Skills of the Future: Human Skills Skills of the Future: Human Skills Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Project Management Skills of the Future: Project Management A courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Future: Health Care Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Project Management Skills of the Future: Project Management Courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth Courses in software development to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Care Skills of the Future: Human Skills Skills of the Future: Project Management Skills of the Future: Project Management Courses oriented to enhancing and preserving uniquely human skills that are difficult to replace with technology and automation Courses in project and program management, oriented to areas of high future jobs growth Courses in project and program management, oriented to areas of high future jobs growth Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Skills of the Future: Human Skills 7 Skills of the Future: Project Management 7 Skills of the Future: Project Management 7 Courses in project and program management, oriented to areas of high future jobs growth Skills of the Future: Software Development 12 Gateway Certificate: Cybersecurity 5 Gateway Certificate: Gateway Certificate: Cybersecurity 5 Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Human Skills 7 are difficult to replace with technology and automation Skills of the Future: Project
Human Skills 7 are difficult to replace with technology and automation Skills of the Future: Project Courses in project and program management, oriented to areas of high future jobs growth Skills of the Future: Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: A certificate collection of courses oriented to an entry-level role in a high-demand career field Gateway Certificate: Google IT Support 5 demand career field
Skills of the Future: Project Management 7 Courses in project and program management, oriented to areas of high future jobs growth Skills of the Future: Software Development 12 Courses in software development, oriented to areas of high future jobs growth Cateway Certificate: Cybersecurity 5 Cateway Certificate: Google IT Support A certificate collection of courses oriented to an entry-level role in a high-demand career field
Management 7 future jobs growth Skills of the Future: Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: A certificate collection of courses oriented to an entry-level role in a high-demand career field Gateway Certificate: Google IT Support 5 demand career field
Skills of the Future: Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field
Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Software Development 12 Courses in software development, oriented to areas of high future jobs growth Gateway Certificate: Cybersecurity Gateway Certificate: Google IT Support Courses in software development, oriented to areas of high future jobs growth A certificate collection of courses oriented to an entry-level role in a high-demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Development 12 growth
Development 12 growth
Certificate: Cybersecurity A certificate collection of courses oriented to an entry-level role in a high-demand career field Gateway Certificate: Google IT Support A certificate collection of courses oriented to an entry-level role in a high-demand career field
Cybersecurity 5 demand career field Gateway Certificate: Google IT Support 5 demand career field A certificate collection of courses oriented to an entry-level role in a high-demand career field
Gateway Certificate: Google IT Support A certificate collection of courses oriented to an entry-level role in a high-demand career field
Certificate: Google IT Support A certificate collection of courses oriented to an entry-level role in a high-demand career field
IT Support 5 demand career field
Gateway
Certificate: Google
IT Automation with A certificate collection of courses oriented to an entry-level role in a high-
Python 6 demand career field
Gateway
Certificate: Cloud
Architecture A certificate collection of courses oriented to an entry-level role in a high-
w/Google Cloud 6 demand career field
Gateway
Certificate: Cloud
Engineering with A certificate collection of courses oriented to an entry-level role in a high-
Google Cloud 5 demand career field
Gateway Certificate: SAS
Visual Business
Analytics
Professional A certificate collection of courses oriented to an entry-level role in a high-
Certificate 5 demand career field
Gateway
Certificate: SAS
Programmer
Professional A certificate collection of courses oriented to an entry-level role in a high-
Certificate 3 demand career field
Gateway
Certificate: IBM
z/OS Mainframe A certificate collection of courses oriented to an entry-level role in a high-
Practitioner 3 demand career field
In-Demand Role:
Cloud Computing
Professional - AWS 4 Courses oriented to highly sought-after skills for cloud computing
In-Demand Role:
Cloud Architect -
GCP 7 Courses oriented to highly sought-after skills for cloud architecture

In-Demand Role: Java Programmer	5	Courses oriented to highly sought-after skills for software development in Javascript
In-Demand Role: Web Designer	4	Courses oriented to highly sought-after skills for web design
In-Demand Role: Business Analyst	12	Courses oriented to highly sought-after skills for business analysis, strategy and operations
In-Demand Role: Python Programmer	4	Courses oriented to highly sought-after skills for Python programming
In-Demand Role: iOS App Developer	3	Courses oriented to highly sought-after skills for mobile app development for Apple iOS
In-Demand Role: SEO Analyst	5	Courses oriented to highly sought-after skills for search engine optimization (SEO)
In-Demand Role: Game Developer	5	Courses oriented to highly sought-after skills for video game development
In-Demand Role: Android App Developer	6	Courses oriented to highly sought-after skills for mobile app development for Google Android
In-Demand Role: Market Analyst	4	Courses oriented to highly sought-after skills for market analysis and customer segmentation
In-Demand Role: Digital Marketer	6	Courses oriented to highly sought-after skills for digital marketing
